C98-20RD3 RADIO CABLE P/N 40892G-11

INSTALLATION SHEET

The C98-20RD3 Radio Cable is used to interface a ICOM IC-M602 or IC-M604 marine or mobile radio to the Series 9800 Marine Intercom System. One end of the cable connects to the Master Station and the other end connects to the radio.

Note: Do not connect to the radio's rear panel command mic connectors. On the IC-M602, you must connect to the front mic connector. On the IC-M604, you must connect to either the front mic connector or the rear pig-tail mic connector (preferred).
